SECTION I GENERAL RULES

A. Definition of Escrow

Escrow means any transaction wherein any property, money, written instrument or evidence of title or possession to real or personal property or other thing of value is delivered with or without transfer of legal or equitable title, or both, and irrespective of whether a debtor/creditor relationship is created to a person not otherwise having any rights, title or interest therein in connection with the sale, transfer, encumbrance or lease of real or personal property, to be delivered or redelivered by that person upon the contingent happening or non-happening or a specified event or performance or non-performance of a prescribed act, when it is then to be delivered by such person to a grantee, grantor, promisee, promisor, obligee, obligor, bailee, bailor, or a designated agent of employee or any of them. Escrow includes subdivision trust (A.R.S. §6-801, as amended).

B. Computation from the Basic Escrow Rate

1. There shall be a basic escrow rate charged for all residential property escrow transactions, which rate shall vary with the “fair value” of the real property involved in the transaction. The Basic Escrow Rates are set forth in the rate schedule in Section II attached. Supplementary charges, discounts, and miscellaneous charges will be adjusted as detailed in Sections III and IV.
2. The escrow rate in commercial and industrial real property transactions shall also be computed from the Basic Escrow Rate Schedule and adjusted according to Sections III and IV.
3. Special escrow rates are made applicable to escrow transactions which involve sub-dividers, builders, developers, volume users, investors, first time homeowners, teachers, police officers, fireman, and active military involved with residential real properties. Rates applicable to these categories of escrow transactions are based on “fair value” and adjusted as described in the “Supplementary Charges and Discount Rates” section and the “Miscellaneous Charges” section.
4. Commercial and industrial sub-dividers, builders and developers shall be charged an escrow rate based from the Basic Escrow Rates Schedule and discounted as a percentage thereof as detailed in Section III.
5. The rates applicable to other categories of escrow transactions, including those where special rates are applicable are similarly described in the “Supplementary Charges and Discount Rates” section.

Great American Title Agency, Inc.

The fair value shall be construed as the full value of the property, or the sale price, including the encumbrances, whichever is higher. When a sale is not involved, the fair value shall be determined from all available information, i.e., amount of funds escrowed, the amount of encumbrances, assessed value, etc. It shall not be less than the sum of the unpaid principal balances of the mortgages and/or contracts to which the property is subject.
