1/5

• Click "Add to Chrome"

- Allow installation of the extension
 - Click "Add extension"

C	Add "Virtru Email Protection for Office 365"?	×
It can:		0
	Cancel Add extension	

• A new tab will open indicating that Virtru has been installed and will allow you to redirect to your email.

• Once you have opened OWA, you will be greeted with a pop-up.

• Click "Activate Virtru".

• A new tab will open, asking for your permission to integrate the app with your email. For more information, click "More Details. When you're ready, click "Accept".

- Once activated you are all set to start sending secure emails with Virtru for OWA. Here's how:
 - Click "New" to compose your message and switch the Virtru Toggle "ON".
